Once you add this shared folder, you'll always have the most up-to-date versions of the files inside "DTLA Renaissance". If Kevin Begovich has given you edit access, you can even add your own files and make changes to existing ones.

Wait, what's Dropbox?

It's a free and easy way to access your docs, photos, and videos on any device, and to share them with colleagues and friends. [Learn more.](#)

Happy Dropboxing!
